

## Welcome

to Your Action Planner for “Fire Your Way to Success.”

Please save a copy of this document to your device before you fill in the questions.

### Part IV: Fire Your Vendors/Partnerships

- Look at your bank statement and evaluate each of your vendors. Are they giving you more in value than you are paying them?

- Evaluate your partnerships with your marketing team. Which joint marketing efforts are paying off and which ones are not?

- Write down what vendors you want to eliminate. By when do you want to transition to a new vendor if needed?

- Create a list of partnerships that are not profitable. What do you need to do to discontinue them?

Thank you for joining me on this course, and congratulations for completing it!
